

Santa Girl

Whitepaper V1

t.me/SantaGirlBSCToken

Introduction

Santa Girl was stealth launched on November the 13th 2021 on the Binance smart chain (BEP-20). Santa Girl quickly built a strong online community to support the future of Santa Girl. With the dedicated devs and our community, we can make this the future of all Christmas-related tokens.

Santa Girl project got inspiration from the successful Santa Coin which shattered the glass ceiling with an amazing 80x within a very short period, Santa Girl being a generous cheerful giver have decided to follow a proven code that will no doubt bring smiles into the face of those who hold on to it.

Tokenomics

Every Time you buy Santa Girl (SGIRL), you pay 15% tax through pancake swap. The 15% tax helps pay a ton of features on our token and keeps everyone holding for the long term.

Marketing

5% of every transaction is sent to the marketing wallet to feed the best Christmas. Token ever to reward our community and expand our exposure. We preferred 5% in marketing because it gives much more marketing opportunity compared to other tokens that generally have lower marketing tax.

Liquidity Pool

5% of every transaction is converted into liquidity for Pancake Swap. Pancake swap fixes the low liquidity problems and keeps prices more stable. A liquidity pool always contains a pair of tokens, which you can trade. Our contract sends 5% from every buy/sell transaction as Santa Girl and \$BNB into a liquidity pool.

Reflections

Earn automatic Santa Girl Tokens by holding your Santa Girl. You will receive the rewards automatically in your wallet. 5% of every buy and sell transaction is automatically redistributed to all token holders. This effectively means that the native reflection of Santa Girl works in parallel with Stable Yield, generating a Compound Reflection effect and exponentially increasing your holdings over time to reward the holders.

Roadmap

Stage 1

- ❖ Launch
- ❖ Liquidity Locked
- ❖ Renounce Ownership
- ❖ First Promo

Stage 2

- ❖ Launch Website V1
- ❖ Coingecko Listing
- ❖ Aggressive Marketing
- ❖ Whitepaper V1

Stage 3

- ❖ CMC Listing
- ❖ Cretik Audit

Stage 4

- ❖ Dapp Launch
- ❖ Season 1 NFT Launch
- ❖ NFT Marketplace
- ❖ Staking

Stage 5

❖ TBD

Our Goal

Our aim is to mature more than a Christmas meme token and get utility into the token by launching a Dapp (Decentralized App) with staking, lotteries, NFT's marketplace, and more in the future.

Our Core Values

Community

Santa Girl will be one of the biggest growing and most popular communities in the BSC token space. We believe the community is essential for our future of Santa Girl and that the price of Santa girl is in the hands of the community.

Long Term

Santa Girl is here to stay. Santa Girl isn't just a pump and dump token. With a Liquidity lock of 3 years, this shows we are in it for the long term. The decentralized community encourages and embraces long term.
